Notice of Fee Increase on January 1, 2003

If a reply to a "Notice of Allowance and Fee(s) Due" is filed in the Office on or after January 1, 2003, then the amount due will be higher than that set forth in the "Notice of Allowance and Fee(s) Due" since there will be an increase in fees effective on January 1, 2003. See Revision of Patent and Trademark Fees for Fiscal Year 2003; Final Rule, 67 Fed. Reg. 70847, 70849 (November 27, 2002).

The current fee schedule is accessible from: <http://www.uspto.gov/main/howtofees.htm>.

If the issue fee paid is the amount shown on the "Notice of Allowance and Fee(s) Due," but not the correct amount in view of the fee increase, a "Notice to Pay Balance of Issue Fee" will be mailed to applicant. In order to avoid processing delays associated with mailing of a "Notice to Pay Balance of Issue Fee," if the response to the Notice of Allowance and Fee(s) due form is to be filed on or after January 1, 2003 (or mailed with a certificate of mailing on or after January 1, 2003), the issue fee paid should be the fee that is required at the time the fee is paid. If the issue fee was previously paid, and the response to the "Notice of Allowance and Fee(s) Due" includes a request to apply a previously-paid issue fee to the issue fee now due, then the difference between the issue fee amount at the time the response is filed and the previously paid issue fee should be paid. See Manual of Patent Examining Procedure, Section 1308.01 (Eighth Edition, August 2001).

Questions relating to issue and publication fee payments should be directed to the Customer Service Center of the Office of Patent Publication at (703) 305-8283.

DETAILED ACTION

Allowable Subject Matter

Claims 30-56 have been renumbered as 1-27 respectively.

The following is an examiner's statement of reasons for allowance:

The prior art does not teach or fairly suggest the system and method for supporting a message delivery service, wherein the system comprises processing servers that are each coupled to communicate with first outbound resources that can each convert an input request message into a format capable of being received by a fax machine over a telephone network and a database server over an internal packet-switched data network; wherein the database server contains account information on customers of the message delivery service; wherein each processing server implements a router-filter for obtaining request messages from the queue while polling the queue for pending requests, validating a customer associated with the message request after accessing the account information in the database server, and determining to which of the plurality of first outbound resources to assign the request message; wherein each processing server implements a message queue for storing request messages that are received from a customer of the message delivery service over an external packet-switched data network, as specified in independent claims 1, 10, and 19.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
